About Us

B S Group reflects a dynamic journey. The company started production in 2004 with a capacity of 30,000 tons per annum and has reached to 345,000 tons per annum, now. The company with a manpower of over 1000, and is growing strong presence in Chhattisgarh and the neighbouring states. Its confidence lies in its loyal client base of 3500+ who value transparency, accountability, and commitment of B S Group.

B S Group offers a range of TMT bar products for construction, infrastructure development, and industrial projects. In addition to TMT bars, B S group also produces power (42 MW), SMS (120000), strip (165000), and allied products.

Why Choose BS Group?

- ★ Advanced Machinery
- ★ Quality Assurance
- ★ On-time delivery
- ★ Client-Centric

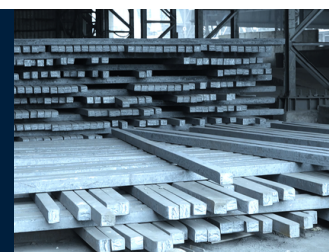

Craft Your Success with Our Offerings

Sponge Iron

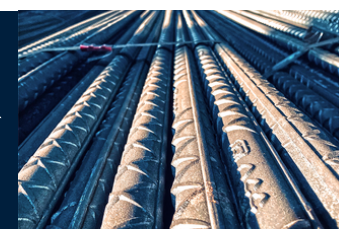

- 1 % Extra sponge yield
- controlled chemical formulation, 20+years exp, 100% integrated plant
- 10%* Reduction in sponge melting cost

Billet

- Billets with superior strength and uniformity.
- Enhancements to improve the properties of billets for specialized applications.

BS-TMX 550

- 15%* Better TMT tensile strength
- 100% Break-free TMT Guaranteed
- Reduce TMT Site consumption by 12%
- Better formulation, as per BIS standard

BS-Coil

- Zero%* variation as per BIS standards Constant thickness.
- 100% Rejection-free coil.
- Less wastage = to 40% larger coil length.

Ferro Alloys

We Offer Following Ferro Alloys:-

- | | |
|---------|---------|
| 1) FeMn | 2) SiMn |
| 3) Fesi | 4) Fecr |

Our Features

THERMEX QST German Technology

- Improved Mechanical Properties
- Uniform and Consistent Quality
- Cost-Effectiveness
- Compliance with Standards
